

Revolutionizing Beauty with Cutting-Edge Cosmetic Equipment Solutions

Cosmetics Solutions

Neologic Engineers Pvt Ltd, an ISO 9001-certified company, started its journey in 2007. With a distinct focus on turnkey project execution within the Cosmetics Industry, specializing in the manufacturing of Personal Care and Home Care mixer setup plants. With a proven track record, Neologic has delivered manufacturing plants across various locations in India, showcasing its commitment to excellence and innovation in engineering solutions.

- **Personal Care Skid based manufacturing solutions**
- **Home care Skid based manufacturing solutions**
- **Automation of manufacturing process**
- **Pasteurized water generation Module**
- **Modular CIP solutions**
- **Pigging system for product recovery**
- **Raw material storage and distribution solutions**
- **Movable vessels with exclusive cleaning module.**

Personal Care & Home Care Skid based manufacturing solutions

- Manufacturing mixers with pressure-vessel design, jacketed for heating and cooling.
- Secondary vessels high & low shear alongside main manufacturing mixer.
- High shear mixer pump
- Product storage tanks
- Positive displacement Lobe type pump solutions
- PHE for heating and cooling applications
- Piping distribution within the processing setup including mixers secondary vessels and product storage upto filling machines
- Platform for mixer setup – stainless steel 304

Automation of Manufacturing Process

- PLC and RIO panels
- Allen Bradley/Siemens platform
- Instruments- Load cells Level, Pressure, temperature, transmitters mass flow meters, pressure switches.
- Variable frequency drives
- Feedback units such as think tops
- MCC for manufacturing setup

Pigging System for Product Recovery

Pigging system for recovery of product in pipeline from product storage tanks till filling machine.

Pasteurized Water Generation Module

Pasteurized water generation Module solutions for – PHE / THE based

Modular CIP Solutions

Customized Automated CIP System skid-based solutions for - PHE / THE based

Raw Material Storage And Distribution Solutions

- Unloading of Raw material from tankers
- Storage of raw material in tank farms
- Distribution to manufacturing skids
- Raw material handled – SLES/Ammonia/ hydrogen peroxide/glycerin

Movable Vessels with Exclusive Cleaning Module

Manufacturing and supply of movable vessels for intermediate storage and transfer to filling machine. With compact cleaning module.
